

Application No: A/45/22/PL

I agree with the conclusions of the archaeological desk-based assessment regarding the potential impact of this proposal on deposits of interest. I also agree with the recommended strategy to mitigate that impact through the implementation of a phased programme of evaluation followed by appropriate preservation and that this should be secured through the application of a suitable condition, e.g. a version of ARC 1 as follows:

No development shall take place until the applicant has secured the implementation of a programme of archaeological work in accordance with a written scheme of investigation which has been submitted by the applicant and approved by the Planning Authority.
