Planning Application No: A/46/19/PL

Tracker Number: 84520

Dear Mrs Gardner,

Thank you for your email dated 23rd April 2019 inviting Highways England to comment on the above planning application.

Highways England has been appointed by the Secretary of State for Transport as strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and, as such, Highways England works to ensure that it operates and is managed in the public interest, both in respect of current activities and needs, as well as in providing effective stewardship of its long-term operation and integrity. We will therefore be concerned with proposals that have the potential to impact the safe and efficient operation of the SRN, in this case the A27.

The Arun Local Plan is now adopted and contains agreed highway mitigations for the impacted A27 junctions resulting from the strategic development sites. The agreed A27 highway mitigations are to be funded from developer contributions. Further housing development, even relatively small allocations, depending on its location, could have a cumulative impact on the A27 junctions as well as the local highway network, which may need associated mitigation. As this development does not form part of the strategic development, the council is advised that it may wish to consider requesting an appropriate proportional contribution from this particular site towards the agreed mitigation at the A27 junctions. Otherwise, Highways England is satisfied that the proposals will not materially affect the safety, reliability and / or operation of the SRN (the tests set out in DfT

C2/13 para 10 and DCLG NPPF para 32) in this location and our formal HEPR response of No Objection is attached.

Should you have any queries regarding this response, please contact us at
