Subject: Proposed safety work to tree subject of TPO

Good Afternoon,

Please find attached a completed application for proposed urgent safety works to a tree on our campsite, which is subject of TPO. I have left a message for the local conservation officer (Mr White?) to contact me if possible, in relation to these works.

I am unable to physically sign page 4 of the form, owing to problems at this end with our printer which suddenly won't print document files ...!

I also enclose a location plan, plus a number of images of the affected tree - its location relative to the site's shower / toilet block and images of the void at its base etc. Additionally, I attach a copy of the email trail with our tree surgeon - Ben Powell of Driftwood Tree Services.

Please let us know if we can be of any further assistance and if a member of your team would like to inspect the tree in question. The campsite is (naturally) currently closed to the public but can reopen as of April 12th (assuming Covid does not have other ideas ...)!

Best regards,

Albert Mariner
ACORNS CAMPING
