Subject: Re: Concern Re oak

Hi Albert,

Yes I did get chance to have a look for you. In my opinion I don't think the tree is safe as it is leaning towards the shower block and the back side would be where the strength in the tree is but instead there is a hole there.

I must also apologise about never getting back to you regarding your Ash trees on the roadside. It completely slipped my mind until I saw your email the other do so I do apologise for that.

Ben

Hi Ben,

Did you manage to get a look at the oak here yesterday?

Cheers,

Albert

Hi Albert,

Would it be possible to come and have a look tomorrow at some point in the day? It doesn't matter if you aren't in as I can just jump over the gate and have a look for myself.

Hi Ben - yes, when would be good for you?

Cheers,

Albert

Hi Albert,

Would it be possible to come round and have a look for you? Its hard to tell from photos how safe it is.

Many thanks, Ben

Hi Ben,
Hopefully you are keeping well?
I noticed this hollow in the base the oak adjacent to the shower block earlier this week. Is it something we need be concerned about?
All the best,
Albert
