

33 Merryfield crescent

Angmering

**Biodiversity statement**

Ref: Our Ref: A/51/25/HH

**Proposed Demolition of existing garage and reconstruction to domestic standard as living.**  
**Garden room**

Then proposals will seek to protect and improve the existing natural environment as far as is possible on this site although the scope of which is limited due to its small size

I believe the proposal will have limited impact as it is located in a largely redundant area and as a limited foot print . The applicant is committed to enhancing the natural environment as far as is possible in a limited area
