

Hi there

Please could the below email be added to the case file online as an objection

Thanks
Amy

Hi Amy

I found your email on the planning portal and have seen that other people are submitting comments via email. So could mine be added please as an objection.

I pass the area where the new micro bar application for planning permission has been submitted. I'm aware that it will also be a bijou coffee shop which would be lovely for the village. But the space is not fit for a micro bar. I appreciate microbars are not "rowdy" drinking establishments but to expect the drinkers to be clued up and aware of this is assuming a lot and come the evening after "a few" it's also hard to expect them to be aware of their surroundings once drinking and behaviour / volume. My heart goes out to those who live above and around the premises for this change of use, as being such an enclosed space it will undoubtedly disrupt their lives with a venue being open until 22:00 each night. The sound is amplified in that corner and the venue is just not conducive to a late night drinking establishment. I fully support the coffee shop part of this application as anything in the day time I believe is manageable I feel when alcohol is not involved and hope this goes ahead for us to all use.

Ann Ellis
