Subject: Caffyns Trees

I am writing to strongly object to the proposal to fell the trees on the Angmering Caffyns Site.

At the very least an independent assessment should be made of the trees. They have failed to adequately protect the trees contrary to the law and I will be following the outcome to see what punitive measures are imposed should the trees have to be felled. It cannot be a coincidence that this unfortunate damage has occurred to trees that may impact on the forecourt of the new development.

I look forward to the developments on this issue.

Best Regards,

Vicki Moore
