Hi, please see attached.

Can you arrange someone to open a case if one is not already open. It would appear that a Breach of condition notice or even a prosecution may be warranted. The submission of the application should not delay any of the above.

Dudley – this is for FYI only and for sharing.

Dear Karl,

I am as concerned as the people of Angmering are that Caffyns are going to destroy these trees and I will absolutely support any objection to the felling of these trees or any action which compromises their viability.

Would you please ask the appropriate officer to formally register my objection as a Ward councillor and as a resident of Angmering.

Regards,

Dudley

Hi Dudley –

You are probably aware of planning Application A/64/18/T submitted by Caffyns Audi to fell the two Copper Beech trees “*due to approved construction works having compromised the life expectancy*”. The trees had TPOs placed on them but this has not stopped Caffyns contractors ignoring that, or the advice from Arun’s Consultant Arboriculturist in protecting them from being damaged as part of the construction of the new showroom.

The following images were taken and posted on the Angmering Group Facebook page just over an hour ago. The builders have certainly moved the fencing closer to the trees since the weekend. It looks as though they have been instructed to keep going to make absolutely sure that the trees are no longer saveable.

There can be no doubt that this is more than just violating a TPO, it is wilful criminal damage. They have now come well within the exclusion zones. It is clear that retaining these trees is not what Caffyns want and their destruction is beneficial to the development as it allows for extra parking spaces and opens up the site so that it has unrestricted views from the A259.

Please can you see if your Officers can intervene and if anything can be done to stop development to assess how bad the damage is?

Kind Regards

Rita
