

Application No: A/64/21/PL

I agree with the conclusions of the Desk-Based Assessment with regard to the likely archaeological potential of this site. I also agree that it would be appropriate for this to be evaluated by trial trenching in order to be able to ensure suitable preservation of significant deposits, either in-situ or by further investigation. This process would be best secured following a version of standard condition ARC 1 as follows:

No development shall take place until the applicant has secured the implementation of a programme of archaeological work in accordance with a written scheme of investigation which has been submitted by the applicant and approved by the Planning Authority.

James Kenny
