Dear Mrs Gardner,

**YOUR REF A/65/11CLP
FALLOWDALE NORTH DRIVE ANGMERING**

Further to the above, we write to inform you of a further piece of evidence about the Ham Manor Estate layout and the Outline Planning Consent from 1949 and 1957.

This company installed a 4 inch water main and Fire Hydrant to service the 4 plots in question. This water main and Hydrant is located at the end of the access road.

This was only done as a necessary requirement to enable the agreed development outlined in A/2/57 which these 4 plots (one already built) was included.

ance please do not hesitate to contact us.
