Planning Reference number: A/17/17/HH

6th April 2017

Dear Sirs,

Re: Householder Planning Application for 9 Bramley Way, Angmering.
Approval of details reserved by a condition.

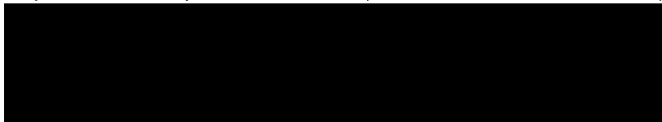

I am acting for my clients Mr & Mrs P. Billett in submitting an approval of conditions application following Planning approval for the above named property.

Condition 3 requires us to show examples of materials used for the roof and walls of the extension. A member of your team advised me that photographic examples and brochures are satisfactory.

The application comprises of the following, which have been submitted online via the Planning Portal:

Application Form
Photograph of actual samples.
A PDF showing images of Vieozinc roof.
2 no. product brochures from Trespa Meteon (wall cladding).

The downloadable brochures from the Vieo web site were too large to include (above 5mb), however, if you wish to see them you can do so here:

It is our opinion that, whilst these materials appear contemporary, they offer a soft colour palette and compliment the materials of the existing house.

We trust everything with the application is in order and look forward to receiving your decision shortly.

Yours sincerely,

Rachel Newton (BA Hons).
Hove Architectural Design And Interiors.
