5th June 2013

To whom it may concern

Reference: The Vinery

(Planning Reference Number: A/74/13)

I wish to express my support for the above planning application.

I have been working for Fargo over 24 years, working as part of the team since 1989.

Over the years, I have seen many changes in the company and these changes have been all for the better, year after year. Currently, Fargo employ a number of expert employees in several fields, in-house as well as out in the field. For everyone who works at Fargo, they each have a vital role to play, providing an excellent service to horticultural growers. As a company, employees at Fargo are calm and hard working people. From the letters that you will receive regarding the above project, I am sure you will be able to build up a bigger picture of Fargo and their employees in due course.

I work in the technical department, as an administrator, looking after Fargo's customers' who require the supply of biological control insects. I work closely with our technical team who provide outstanding advice on Fargo's range of products to many growers. Over the years, I have built up a vast amount of knowledge and an understanding of our customer relationship, through our technical team. Fargo is the first point of contact for many local horticultural businesses, sourcing information. Our technical advisors help all they can to provide a second to none service to new comers as well as old in the growing business. Without their expertise I would not have reached as far as I have and I hope to continue to learn more from them. Growing commercially is not as easy as one would think but with help, externally and in-house, the end result of growing is the number one key for ALL our wellbeing in the long run. Opportunities may come and go and as my retirement seems a long way off, there is still time to learn.

I hope you will approve the above application for the relocation of Fargo's premises to Poling. I will be happy and so will others. Fargo is in the perfect position to ward off the competition from outside West Sussex and with the high customer base in the South East, Fargo are positioned in the middle of their customers, with room for expansion if need be. It would be such a tragedy if Fargo needed to move to another county, and especially when most of us live locally.

I would therefore be grateful if you would consider approving these plans. This will mean that business is kept locally, which is good news for our county and all my colleagues.

With kind regards,

A solid black rectangular box used to redact the signature of the sender.
