Dear Planning Team

We have dealt with Fargo for the past 15 years, and have found them efficient and very professional in their dealings with our Farm Partnership. The proposed move to a site south of the Vinery off the A27 is to be welcomed as it will give the opportunity for long term expansion and importantly enable the existing staff to continue to work there.

In these difficult times, it is good to see firms like Fargo

looking ahead to a continuing
future with profits which will
help all aspects of the local community.

We hope that the planning
application goes through - it
has our strongest support.
