16th June, 2013.

Dear Sirs,

Planning ref. No. A/74/13.
Fargro Ltd.

I write in support of the above-mentioned application. I have been a customer of Fargro for about 40 years. They give an indispensable service to horticulture in the South-east.

You will know that the proposed site to which the application relates is not far removed from their existing one in Toddington Lane. I know that it is important to them to remain close to their existing site to enable them to retain their current staff.

I trust you will be able to look upon this application favourably.

I did endeavour to use your web site for this communication. Regrettably without success.

Yours faithfully,

R. Dowsey..
