PLANNING REFERENCE NUMBER A/74/13

Dear Sir,

I wish to support the Fargo Planning Application reference A/74/13.

Moving the Fargo Business to this location would seem to benefit both the Littlehampton Area as regards job retention, traffic movements and at the same time allowing the Planning Committee to pass this Application without wide protest from the local community.

The site would allow future development for an expanding business with the added advantage of job creation, which the area desperately needs.

It is ideally situated for access to a major road allowing traffic movements with little disruption.

I therefore give my wholehearted support to this application.

Yours faithfully

MR B. KEENE
