Planning reference A/74/13

Dear Sir/Madam

We would like to convey our support for the planning application A/74/13. My wife and I have worked in the horticultural industry for over 20 years. We have seen considerable changes over this time, especially in the supply side. Fargro now being one of the few remaining companies supporting the horticultural industry.

We work remotely with daily contact and direct links to the head office and distribution centre. All stocked goods are dispatched from one site and we believe that it is essential that this remains local to the existing location.

There are many reasons this business needs to be local, primarily so we can continue to serve the local horticultural businesses in the area and further afield and continue to provide employment locally for a large number of staff with a wealth of specialist knowledge that goes to making the business a success. We hope this application is successful to enable the business to continue to develop and support the local area with employment and the service it provides.
