Planning application A/74/13 **The Vinery, Fargo Ltd**

Dear Sirs

We would like to support this application for Fargo to relocate its business premises within the district.

Fargo is an integral part of the horticulture industry in West Sussex and has provided our business with horticultural products and technical advice for many years. It is therefore important that Fargo, who has consulted at length both with Arun District Council and its staff, should be able to provide a seamless transition to a new site so that it can retain its key staff and technical department as well as being able to grow the business in the future.

I trust you will view this application favourably and continue to show the District's support for the horticultural industry in Arun and surrounding districts.

Yours faithfully

Michael Norris
Production Director
