FARGRO PLANNING APPLICATION A/74/I3

20th July 2013

Dear Sir,

once again I feel I have to write to you about industry encroaching on our beautiful countryside at Poling.

Allowing this vast development on good agricultural land will more than double the industrial site that is already at the Vineries, and once it is constructed it will be land lost forever under acres of steel and concrete.

The extra noise and pollution from the resulting traffic will have a huge detrimental effect for the people who live near the proposed site, plus will add to the chaos on the A27 which has traffic queues past Poling Street in the summer months.

Poling village is of historical importance, it is also one of the most attractive unspoilt gems in the region. This will all be lost if this hideous, gross industrial development goes ahead.

(W.H.Porter)
