Subject: RE: The Vinery - Planting along Southern Boundary

Cian,

Yes, these drawings have been completed. They were forwarded to our colleague Joe Russell-Wells last week. I spoke to him on last Friday (September 27th) to confirm that he had received them. He said he would review them and pass his comments on to you. It is my understanding that the slightly increased stock sizes and the illustrations showing the anticipated growth rates of the trees have addressed his earlier concerns.

I have experienced a few problems with my emails over the last few weeks, so it is possible that not all my messages to the Council have received. I will therefore resend the final versions of the additional information produced to you in separate emails. The information consists of:

Updated Planting Plan (Rev B)
Updated Planting Schedules
Table showing Anticipated Tree Growth Rates
Southern Elevation showing tree growth on Completion and at 5 and 10 years later
Western Elevation showing tree growth on Completion and at 5 and 10 years later

I would be grateful if you could acknowledge you have received them and would welcome any comments you have.

Please let me know if you need any further information.

Regards,

ARUN DISTRICT COUNCIL A/74/13/

Chris

Chris,

Your email below mentions drawings for the western boundary? Have these been finalised?

Thanks,

Cian

Subject: The Vinery - Planting along Southern Boundary

Joe,

Based on the Planting Plan, Schedules and Tree Growth Rates previously forwarded to you, we have generated the attached series of elevations showing the anticipated level of screening to be provided by the proposed planting along the southern boundary. These show the height of the trees immediately after planting and at 5 and 10 years after planting. It is anticipated that the woodland buffer could totally screen the building by the time that the vegetation is 25 years old (see Growth Rates Table), so we have not generated an elevation for this stage. Are you happy with this approach?

We have used these elevations as a design tool as well as for illustrative purposes, and have refined the tree spacings on Planting Plan where necessary. We will therefore reissue the Planting Plan to you shortly.

We are currently undertaking a similar exercise for the western boundary, which should be available tomorrow.

ARUN DISTRICT COUNCIL A/74/13/

I would be grateful if you could confirm whether this now provides you with the information required. Please feel free to give me a call if you need to discuss.

Regards,

Chris
