Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:
Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:
The proposal does not impact a priority habitat and impacts less than 25 square metres of non-priority onsite habitats or 5m for non-priority onsite linear habitat

Note: Please read the help text for further information why developments may be exempt or not in scope.

Details of the pre-application advice received

These works do not require LBC because of Ecclesiastical Exemption- but do require Planning Permission
Advised that the works to raise the lychgate require full planning permission and that he was happy with the idea of raising the brick base and extending the gate downwards with a further rail and slats
Agreed that a cast iron bollard would be much more acceptable than the folding one initially suggested.

It is an important principle of decision-making that the process is open and transparent.
