Dear Miss Burrows

Re Cut back branches of 1 No. Bay tree and 1 No. Euonymus tree, Garden House High Street Angmering

Further to our recent telephone conversation earlier this week, the exact metric measurements requested are as follows:

The wall is 2.4 metres high. The combined width of the overhang of the two trees in question is 3 metres. The branches measure 0.5 metres on top of the wall and hang down a total of 2.5 metres which includes the 0.5 measurement.

The overhang from the wall is 1.25 metres in depth.

Please feel free to contact me if you need further information and also visit the site if required.

Kind regards,
Brian Lamming
