Dear Kathryn Welch,

I would like to object to Application No: A/80/22/CLP

Being a resident of Angmering at my family home my whole life (32 years) I can tell you the area has never been upkept by any 'owner' and has been left rather desolate and dishevelled; which the neighbours of Meadowside have done their best, at least, to maintain for this huge amount of time.

I am confused as to what the sudden interest in it is now; after 30 plus years... money I assume, as usual, but it is certainly not for the interest of any of the neighbours of Meadowside who have kindly done their best to maintain this, basically discarded area.

I fail to see how building even more garages is of any benefit to anyone in the area; especially as the compound is already incredibly overcrowded and there is barely any room to manoeuvre as it is, so adding more would only further exacerbate the situation. What is the need for more garages when some of those already there have been left derelict and not used?

Furthermore, my brother (James Witchell-Towers, 57 Meadowside) has young children and I find the thought scary that this project will potentially block off public footpaths, making there no safe passage for my young nieces and nephews.

I myself as a child walked those pathways and they are needed to sustain safety.

The developer, who many people of Meadowside have spoken to, has little to no regard for any of the locals and has expressed his intention to rent to builders or as storage units. This fact further adds to my stress as it brings even more traffic and build up to what has been a small family area for decades.

We do not need a commercial builders yard on our doorsteps, especially when there are primary schools so near by and so many young children outside playing; we do not need the added danger of even more traffic/vehicles.

Thank you for your time
Rebecca Witchell
