Dear Kathryn Welch,

I would like to object to Application No: A/80/22/CLP

[REDACTED] who lives at 26 Meadowside Angmering, BN16 4BN - and I have lived here for the past 35 years.

During this time - the garages have never received any upkeep, and have been left to crumble and gather overgrown wildlife which we the residents of Meadowside have managed ourselves as we assumed this was public land.

You can imagine my horror when contractors arrived suddenly, with no notice and put metal fences up ripped up all of the greenery that had naturally grown after years of being left, which had become a home for local wildlife including hedgehogs (please do not overlook this point as they are an endangered species and the local wild animal trust should of been notified so they could of been safely moved)

This highlights how little regard these individuals hold for the community apart from making money. They have threatened to tow cars away that dare park on land we have parked on for the past 35+ years. The original plans being created in the 60s shows how long they have left this place dormant and it's another simple case of the rich trying to get richer and squeeze income out of a small amount of land at the huge impact to the local community.

This has already had a huge impact on my own mental health, the stress of having to move my own car so far away and being threatened idly with towing the costs that ensue is nothing short of outrageous.

I have raised children here who have now got kids of their own, and this is another example of a public area children could cross through safely being pushed out in search of more money. The additional traffic and lack of space in the area will again increase the risk of accidents and rest assured, if this plan goes ahead and any child was injured you would have to take partial blame for allowing this to move forward .

I hope you do the right thing for this community. Please let me know if you have any questions.

Thank you for your time
Jill Witchell
