Dear Kathryn Welch,

I would like to object to Application No: A/80/22/CLP.

I live at 26 Meadowside Angmering, BN16 4BN and have lived here all my life - 26 Years. The garages floor (As of course, this dispute is over a small strip of land located within the garages) has been in poor condition all of my life, many a time have I had a puncture or injured myself from either loose nails, glass or just the ground deteriorating. We maintained and looked after this land ourselves as a community.

I used to walk through here freely as a child - running through and around the area without any risk of injury. Now that is all at risk thanks to some random rich family, without any care for the community trying to squeeze more money out of some land during a time where the cost of living has skyrocketed, and individuals are struggling enough to even drive their cars and put food on the table, let alone pay out extortionate rent costs for a garage or the ridiculous parking space idea they originally had.

Parking on the road and forcing the already limited amount of space to get even smaller has already caused issues, my car was dented being forced to park on the road as everyone is having to get as close to each other as possible to get by. This does not also include the amount of risk to the young people in the area, including my own nephews and

nieces whom I am very concerned for. I do not want the higher amount of traffic and large vehicles coming through the road that could lead to injury or even death.

The noise pollution as well from the additional work vans will cause an untold impact on the neighbourhood and individuals mental health, someone like myself who suffers with Insomnia and already struggles to sleep will surely be woken up even more, causing knock on effects such as depression to seep in. These are not concerns the owners of the land cares about, this is a perfect example of another land barren trying to milk a cash cow not caring who or what they impact in their pursuit of more money so they can buy another Rolex or slightly shinier tint of paint for their car - which I'm sure isn't compensating for anything.

They come in with petty threats of towing and disruption, especially to the elderly members of our community are not acceptable and will not stand if the plan stays as is currently intended. I hope you do the right thing and reject this ridiculous request.

Thank you,

Jack Witchell
