Hi Anita

I attach 2 plans which I feel should be OK.

I have adapted the original 1988 plans to show what changes have taken place and given it a new drawing No. EL06

I have notated the layout plan and called it revision R.A.

I have not changed the red line because: The outdoor sitting areas are not shown on the cafe approval drawing, although it would be PD as within the overall site. As such it makes sense to leave them in the red line.

The plans show how the retail area has shrunk and that some of the buildings are used for admin, etc rather than retail.

If you need anything changed let me know and I will do tomorrow afternoon.

Regards

liz
