Dear Sir/Madam

Re: Revised Planning application A/82/12

I am writing as a resident of Angmering to object to this revised proposal.

- I am disabled & value the excellent service provided the Health Centre in Angmering. More people will bring longer waits to see health professionals.
- It is already busy on Roundstone Lane particularly early morning & late afternoon. The village has steep lanes which are quite difficult to navigate safely. More traffic will exacerbate this along with the added noise & fumes. There is already insufficient parking in the village
- There is inadequate infrastructure. Drainage & sewer pipes are inadequate & the land is prone to flooding. There is also a limited bus service
- There is no identified need for housing in this location & there are insufficient local jobs
- I do feel that this could be the thin edge of the wedge which will then lead to housing all along Roundstone Lane which would make the above points even more relevant.

I hope you will take all of this into consideration.

Yours faithfully

Jane Harris
