Subject: 139 houses at Roundstone Lane.

Dear Sirs,
I object most strongly to this new application by Barratts to build 139 houses at Roundstone Lane.
My objection is that Angmering already has too many houses for the infra structure to bear.
The lack of medical facilities,schools,and other amenitiesis bad enough for the existing population let alone any increase.
139 houses means at least another 200 to 300 vehicles using the already over loaded A259 especially where the single track between the Angmering Station roundabout and the roundabout at the south end of the Angmering byepass has almost continuous congestion.
No more houses should be built until these matters are addressed.
Yours faithfully
Dudley James Clapham
Ham Manor Way
