Subject: Barrett development, Angmering A/85/12

Dear sir, I am a mother with a young son and at present Angmering is an excellent place to bring him up. I do not want to see the open fields given over to housing. Currently we seem to be able to cope with the traffic and schools are adequate. Likewise the medical facilities are reasonably available.

I believe there would be a strain on local resources if any large and unsustainable housing went ahead. We have seen a lot of flooding in Angmering this year and more housing is likely to make this worse.
