Subject: A/82/12 objection to planning (deadline 27th March)

To whom it may concern,

A/82/12 plans for additional houses in Angmering

I am utterly horrified at such possible plans and 100% fully oppose them.

My family and myself moved to Angmering 5 years ago, to get away from busy town life. We love Angmering and the children have thrived under a village life - they feel safe and the area is very friendly, with lovely neighbours. The school is great (St Margaret's) although I do feel it is expanding and expanding and will soon lose its charm.

The Roundstone A259 is already hideous and cannot support the existing traffic. It hardly ever seems to free flow now, but constantly has tail backs of traffic.
The Angmering by pass and this Roundstone A259 were built to take traffic away from people using Angmering as a rat run
However, now the A259 is so bad, people constantly revert back to using Angmering village as a short cut, so it defeats the object of the principle. The additional traffic can sometimes race through the village centre and I dread to think of an accident involving a pedestrian may be on the horizon.

The schools cannot cope with any further in take

The village already floods in the centre and at key roads

It would be an utter disaster

Please, please, please ensure that this doesn't happen - please don't ruin Angmering.

Kindest regards,

Dawn Theobald-Park
