Dear Sirs

Reference: A/82/12

Objection to Barratt's Development in Angmering

I am writing to object to Barratt's Planning Application A/82/12.

The reduction in housing numbers from the original application in no way reduce the impact of this development on local infrastructure and do not respond to the concerns of local residents on the specific issue of increased traffic entering and leaving the site on narrow and already overcrowded roads.

At the very least, until such time as firm guarantees can be given on infrastructure improvement and additions – roads, paths, schools and medical facilities, it would be premature for any consideration to be given to this application. Approval of such a development would not only fly in the face of local feeling but would make a mockery of the prevailing localism philosophy.

Yours faithfully

Derek Dainton
