NOTES RELATING TO PLANNING APPLICATION
TOWN AND COUNTRY PLANNING ACT 1990
APPEALS TO THE SECRETARY OF STATE

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the First Secretary of State under section 78 of the Town and Country Planning Act 1990.

If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, and you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of this notice.

If an enforcement notice is served relating to the same or substantially the same land and development as in your application and you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of service of the enforcement notice, or within 6 months of the date of this notice, whichever period expires earlier.

For all other cases, if you want to appeal, then you must do so within 6 months of the date of this notice using a form which you can get from the Secretary of State at the Planning Inspectorate, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN or on line at www.planningportal.gov.uk/pes

If this decision is a refusal relating to a minor commercial development, where the application was made on or after 1 October 2013, please note that you must appeal within 12 weeks of the date of this notice. For a definition of minor commercial development please refer to The Town and Country Planning (Appeals) (Written Representations Procedure and Advertisements) (England) (Amendment) Regulations 2013 or contact this office for clarification.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to him that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

In practice, the Secretary of State does not refuse to consider appeals solely because the local planning authority based their decision on a direction given by him.

PURCHASE NOTICES

If either the local planning authority or the Secretary of State refused permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (that is, where the land is situated in a National Park, the National Park authority for the Park, or in any other case the district council in whose area the land is situated). This notice will require the Council to purchase the owner's interest in the land in accordance with the provisions of Chapter 1 of Part VI of the Town &

Country Planning Act 1990.

Please note that this decision notice only relates to matters under the Planning Acts and does not give consent under any other legislation that may apply to the development. You will need to carry out your own checks to determine whether any other consents or permissions are required. For example, the Building Regulations are likely to apply to most developments, and a Highways Licence may be required from West Sussex County Council for any development within the public highway (including the placing of skips on highway land).

West Sussex Fire Brigade Guidance Notes

WEST SUSSEX FIRE & RESUCE SERVICE

Guidance Note: The Provision of Fire Hydrants and an Adequate Water Supply for Fire Fighting

1.0 Water Undertakers

The water undertakers in the County are as follows:

Portsmouth Water Company
Southern Water Authority - Incorporating Hardham Brighton and
Worthing
South East Water
Sutton and East Surrey Water Company

2.0 Hydrants

Hydrants will be installed if required, in the following circumstances:

- i) when new water mains are laid
- ii) to cover new building development and
- iii) where fire risk is increased

2.1 Hydrants on New Mains

Water undertakers are required to notify the Fire Authority of proposals for new water mains. Details of such proposals are sent to Brigade Headquarters usually in plan form

2.2 New Hydrants on Existing Mains

Water undertakers are required to notify the Fire Authority of proposals for replacements of existing mains. The need may arise to provide additional hydrants where there has been new building development or where existing supplies have become inadequate

2.3 Location and spacing of Hydrants

Fire Hydrants should be sited in positions to be agreed by the Fire Authority and, where possible, such locations will be at main roads, feeder roads or road junctions where they are readily visible

Although no statutory distance is laid down for the spacing of hydrants, the distribution of hydrants relates to the location and degree of risk in accordance with the following general guidelines:

- I Residential (to include Sheltered Housing)

Approximately 360 metres apart

In effect, up to 350 metres apart and no more than 180 metres back to a hydrant in cul de sacs etc

II Industrial, Industrial Estate and Associated Risks:

In effect up to 180 metres apart and no more than 100 metres back to a hydrant in cul de sacs but these distances may be reduced in areas subject to higher risk

III Hospitals, Institutions, Hotels etc:

To conform to any relevant Code of Practice. In the absence of such guidance 180 metres and no further back to a hydrant than 100 metres from risk

IV Educational Establishments and Other County Council Premises excepting previously outlined:

To conform to any relevant Code of Practice. In the absence of such guidance 180 metres apart and no further back to a hydrant than 100 metres from risk

V Town Centres, Shopping Buildings, Malls and Other Major Commercial Developments:

To conform to any Code of Practice. In the absence of such guidance, as for Industrial.

VI Rural Areas:

In rural areas, particular attention is paid to specific risks. Therefore, it is not appropriate to indicate a general spacing standard for rural areas

VII Trunk Road and Motorways:

Where distribution systems allow, at 1 km intervals. At service centres (Little Chef, Happy Eaters etc) hydrants should be installed at the access position to the acceleration and deceleration points where they are readily visible

VIII Major Risks:

Such risks are considered individually to ensure that the overall position for fire fighting comprising, as

appropriate, internal water based protection systems, private fire hydrants, statutory fire hydrants and other 'open water' supplies, is adequate.

3.0 Water Supply

3.1 Diameter of Water Mains

Hydrants are to be fitted to water mains of not less than 100 mm in diameter in residential areas and not less than 150mm diameter in industrial and commercial areas.

3.2 Water Pressure

Water undertakers are under a statutory duty to cause the water in such of their water mains as have fire hydrants affixed to them to be laid on constantly and at such pressure as will cause the water to reach the top of the top-most storey of every building in the undertakers area
