Subject: ANGMERING VILLAGE PROPOSED DEVELOPMENT A/82/12

I wish to protest at the proposed development of Angmering village.

This will entail an unacceptable increase in traffic, which already is a problem. The village is already used as a rat run to avoid the congestion on the A259. Roundstone Lane, onto which most of the traffic will flow, is a narrow road and at many times of day, there is a queue to get onto the A259. We live next to Roundstone Lane and the noise of the traffic would increase dramatically. If the traffic were to go in the opposite direction through the village, then there would be bottlenecks. Both options would cause pollution, whereas we have at the moment areas (where the building will take place) that allows the village to breathe. There is also the matter of concreting over a large area which absorbs the rain at the moment. This could result in flooding.

Do we really need as many houses as those that are envisaged? How will the infrastructure cope with such an increase in housing?

This development would take away what is essentially village life at the moment. I would hope that our MP, who has recently said that his interests now will be directed towards environmental matters, would support our fight
