1ST September 2012

To, The Planning Dept Arun District Council.

I am writing to object to the planning application by BARRATT³⁵A/82/12 regarding houses being built east of Roundstone Lane, Angmering.

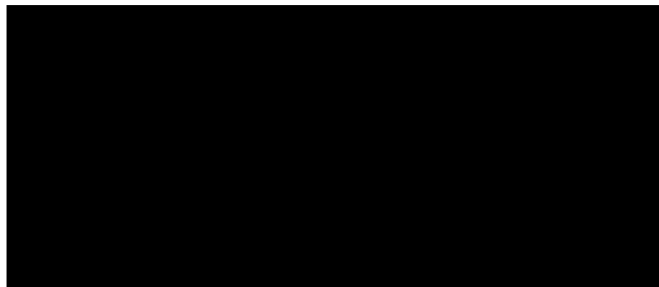

Angmering has not got adequate infrastructure or services to cope with extra housing and people on a large scale.

Congestion lack of parking, overcrowding in schools, water supply, drainage and sewers, poor bus service, over stretched medical centre and lack of affordable housing, the building of more homes will add more to the problems that Angmering has got.

Large scale housing will not bring any enrichment to the village, I have seen. In the last 50 years a thriving village supporting 14 shops and business. Now it's become a rat-run for commuters.

If we have got to have homes in Angmering let them be on small pockets of disused land scattered in the village, eg Arundel Rd towards the A27 used for scrap cars and dumping of rubbish, ground off Dappers Lane disused nurseries and run down stables, there are lots around.

Yours sincerely,

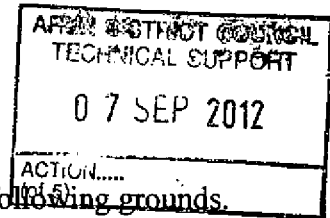

Mr & Mrs J Nagle

Angmering Parish Council

Dear Sirs,

Ref: Barratts Application Number A/82/12

We would like to object to the above planning application on the following grounds.

- (1) Traffic minimum of 150 cars onto already congested roads.
- (2) education lack of schools and facilities.
- (3) Poor recreation and sports areas already, much more would be required.
- (4) Medical practice more would be necessary.
- (5) Very poor proposed entry and exit.
- (6) Water would appear to be in need of serious upgrading if we want to avoid summers of hose pipe bans

Yours faithfully,

Mr & Mrs J Nagle
