25th September 2012

Dear Sir,

Barratts Planning Application A/82/12

I strongly object to the above planning application submitted by Barratts for the following reasons:

1 The roads in the area are extremely crowded especially on the access to the A259. To increase the volume of traffic is unacceptable.

2 The building on greenfield sites should not be considered while brown field sites are available.

3 This application must be considered as part of the local neighbourhood plans both at Parish and Arun level.

4 The schools in the area are already at maximum capacity, with some classes taking 37 in a class, which is well over the acceptable limit.

5 The doctor's surgery is overloaded, as sometimes it takes several weeks to get an appointment. Not to mention our local hospital and hospice, who again can barely cope with the numbers of people requiring medical attention.

6 Angmering is a village, and to keep building more houses will make it into a small town. David Cameron stated that he did not wish to see large housing developments plonked down in villages.

7 The danger of flooding will only be increased with more buildings. The village was cut off not long ago because it was like a lake.

Yours faithfully

Robin Ruffer
