Dear Sir

Planning Application A/82/12
Barratts' 150 houses east of Roundstone Lane

I object to this Planning Application for the following reasons:-
Traffic on our narrow village roads is already causing intolerable delay and danger through the volume of vehicles using Roundstone Lane and Station Road instead of the by-pass. Driving along Arundel Road has a delay factor of 20/30minutes during the schools (3) morning and afternoon start and finish times.

An expected increase in the number of school children will be endangered by this lack of safe travelling, either by car or walking – or even cycling.

Pollution from traffic fumes are already discernable (Storrington vehicle emissions have been classified as a health hazard).

The local infrastructure is already crumbling under the unsustainable inadequacy of the water supply, drainage and sewage pipes.

Medical facilities are at breaking point, overloaded by the increasing population with insufficient provision of doctors etc.

Let's keep Angmering as a **village** and a pleasant and rural place to live for all age groups. Are these proposed 600 houses really needed? And where will the newcomers work?

Small areas of new houses, on brownfield sites, would provide for the few residences required.

Yours faithfully
