8th June 2013

The Chairman
Angmering Parish Council.

Dear Chairman

RE Request from Private Developer Regarding Road Alteration in
Roundstone Lane.

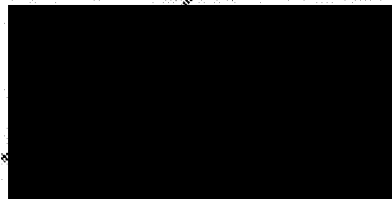

I believe the 'proposed alteration' would be completely inadequate and dangerous. It would fail to slow traffic (the existing speed cushions have little effect) and give very little protection to pedestrians many of which will be children going and returning to school.

Roundstone Lane needs substantial widening including a full length pavement before any housing development is considered.

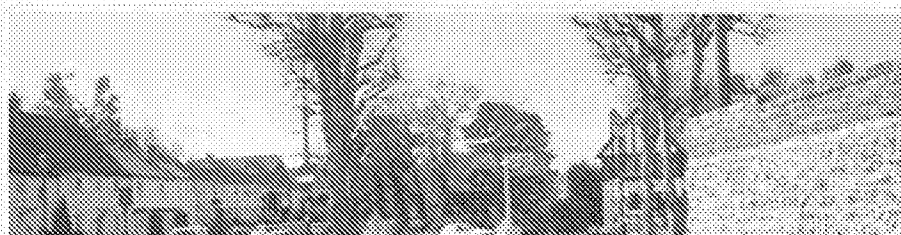

I also have strong concerns that A.P.C. have displayed this plan and letter which seems out of order as comments normally follow a planning application when the public and APC can have their say.

Yours faithfully

H.M.Lilly

Proposed alteration to Traffic Calming Feature - Roundstone Lane

Please see the following email which we received today.

Dear Sirs,

As part of the redevelopment of land to the east of Roundstone Lane, Angmering applied for under Arun District Council Planning Application A/02/12 we write on behalf of the Developer to ask for your views on the proposed alteration to the existing traffic calming feature adjacent to the existing residential properties of First Cottage and The Willows, Roundstone Lane, Angmering. I enclose a TPO Consultation Plan which shows the existing and proposed arrangements.

The reason for the alteration is to allow vehicular traffic and provide improved pedestrian crossing facilities for the bus stop and entrance to the proposed residential development.

As part of the informal consultation procedure for Traffic Regulation Orders please provide us with your views on the alterations which will be considered by West Sussex County Council (WSCC) as the local Highway Authority in progressing this matter.

Please provide comments and in particular any objection to these works by Thursday 13th June 2013.
