Dear Sirs,

Re: Barratts Planning Application

Revised A/82/12

I am writing to object regarding the above Planning Application for the following reasons:

- it is contrary to the Localism Act whereby

David Cameron was giving more power to local communities regarding the use of land and future developments within their own parish. Why is this Application even being considered before the Neighbourhood Plan has been finalised? This

Application is one small part of the "Master Plan" of over 500 houses.

- road congestion and pollution on Weavers

Hill, Arundel Road, Roundstone Lane and the utter chaos of the A259. These roads cannot cope at present so how will they fare with the increased traffic from an extra 139 houses?

- primary schools are oversubscribed which means local children have to travel by car to schools out of area. Even if another primary school is built, this will only result in more pressure on the Angmering Sports and Science College which is oversubscribed.
- ineffective Doctors surgery - there are current capacity problems causing appointment delays
- concreting over green areas will lead to flooding

- current adequacy of power supply unable to cope with increased demand from an extra 139 houses. There have been major excess of 4 hours power failures in the past 2 years.
- Angmering has already contributed significantly to new housing developments with the building of Bramley Green. Buyers will come from out of area increasing pollution and pressure on the rail service. These buyers will not improve local business income as they shop out of the village.
- total disregard for quality of life. Angmering is a village with green spaces, close to the South Downs National Park. This development will ruin its character, way of life and put unsustainable pressure on infrastructure.

District Councillors are obviously oblivious to all the above. It is strange that all District Councillors were opposed to the future expansion and development of Angmering in their election campaigns but have now betrayed the people of Angmering with their current actions. I wonder why they have all completely changed their views. They need to remember that ANGMERING IS A VILLAGE - shame they have forgotten.

Yours faithfully

MRS G. BISHOP (unsigned as instructed
by recent e-mail).
