Importance: High

EH comments in relation to A/82/18/DOC

Having reviewed the submitted Acoustics report by RBA Acoustics [Ref: 8689.RP01.EBF.0 dated 14/05/2018 Rev. No. 0] I am satisfied with the report methodologies, findings and recommendations.

This allows the discharge of Condition 27 (Noise Levels) as imposed under A/132/17/OUT

Condition(s) 5 / 6 / 7 / 10 / 11 / 12 / 13 / 14 / 16 – Environmental Health are not the responsible authority for these conditions.

Kind regards

Christopher Davis
