Dear Chris

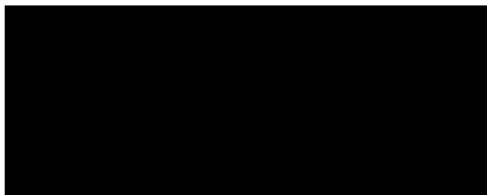

QUIET WATERS, ROUNDSTONE LANE, ANGMERING SITE PLAN REVISION

Acoustics Summary

We have reviewed the proposed site layout as received by us on Wednesday 19th September 2018 in the document reference 1006-Ang101-N-Proposed Site Layout. We can confirm that the new site layout has no impact on our previous recommendations in report 8689.RP01.EBF.0 and that the glazing requirements suggested in the report still stand given the new site layout.

We trust the above is clear and of use, however should you have any questions, please do not hesitate to contact the undersigned.

Yours sincerely,
For RBA Acoustics
