Subject: FW: Discharge of Condition application A-86-20-DOC - Manor Nursery, High Street, Angmering Southern Water Ref 034392 1 of 2

Hi Stuart

Thank you for the chat yesterday and the 'plots' confirming the stand distances for soakaways and the easement criteria.

This has clarified the situation for me and I can confirm condition 20 can be discharged.

I have included Michael Eastham from Arun into the email.

Regards

Joff

Attn Joff Edevane

Southern Water Plan Number 034392

Hi Joff

Further to our telephone conversation I confirm I have been passed your email from earlier today to Michael Eastham at Arun District Council in regard to Southern Water's refusal to allow the discharge of Condition 20 of A/86/20/DOC.

I'm not sure what information you have been passed so I have attached the relevant information and note the following:

The water main is indicated as 80mm in diameter on Southern Waters asset plan (plots pdf.pdf, copy attached) it will be located in public open space on completion of the development and we have noted a 3m easement and no construction zone to protect the asset during construction.

We do not believe a formal easement is required for this water main as it does not meet Southern Water's criteria requiring an easement. I have attached Southern Water's published guidance which notes that sewer/water mains in public highway or public open space do not require easements, neither do water mains with diameters smaller than 300mm or less than 3m in depth all of which apply to this 80mm diameter water main.

We have indicated a 3m easement and no construction zone to ensure protection during construction and have noted both in the attached email to Southern Water dated 23 July 2020, from my colleague Steve Burgess, to which we have yet to receive a response.

We have attached plan 110A which details the dimensions to the soakaways from the water main at 7.26m, 7.77m and 7.73m. Southern Water's published stand off distances to soakaways for a water main of less than 250mm diameter and less than 3.5m deep is 6m. The Southern Water letter notes that No Soakaways...should be located within 5m of public water main. The soakaways, at a distance greater than 7m from the water main, are not within the 5m requested or the 6m standoff distance for this size of water main.

There does not appear to be any reason why Condition 20 should not be signed off given this information and I trust this submission will allow you to reassess the scheme and remove Southern Water's Objection and recommend the clearance of Condition 20 to Mr Eastham at Arun District Council.

If you have any queries or if I can be of any assistance please do not hesitate to contact me.

Regards

Stuart

Dear Rebecca,

Please see the email below and the attachments from Southern Water regarding Condition 20 in discharge of condition application A/86/20/DOC.

Basically, Southern Water requires a **6m easement**.

I look forward to receiving your reply.

Kind regards,

Michael

Hi Michael

Sorry for the delay in replying, if you could please quote our PLAN number in future correspondence this will speed things up for us (034392). In such instances Southern Water requires a 6m easement and therefore cannot approve the discharge of condition 20.

Regards

Joff

For the attention of Southern Water:

Please see the email below from the applicant, together with the attachments.

If you could submit your revised consultation response today (**Monday 17th August 2020**) to approve and discharge **Condition 20** in discharge of condition application **A/86/20/DOC** regarding Manor Nursery, High Street, Angmering, the LPA can issue the decision letter and close the file.

I look forward to receiving your reply.

Regards,

Michael

Dear Michael,

We have sought comments from our Drainage Consultants, The Civil Engineering Partnership, on this. Please see comments below.

The initial email which was sent to Southern Water on 23 July 2019 is attached for reference. The plans attached to the email illustrate a 3m easement for the main either side and within the site boundary. Unfortunately we do not agree that a 6m easement either side of the pipe is necessary as a 3m easement would provide adequate space to work and provide protection to the main. The 6m easement would encroach on to the developable area of the site, with particular regard to the houses to the east of the open space.

Southern Water's comments are noted with regard to the proposed soakaways being situated too close to the main in their current position therefore these have been relocated to provide a minimum offset of 5m from the main, as requested. Please refer to the attached amended plan which shows the soakaways positions in relation to the water main along with the previously proposed (3m) easement area.

We trust that the above and attached are acceptable and Condition 20 can be discharged in full. We also look forward to received the discharge notice for Condition 19 shortly.

Please do not hesitate to contact us should you have any queries.

Kind Regards,

Rebecca Hoad MSc Town Planning
