Mark,

Thanks for your email and apologies with the delay. Martyn and I have looked at this and are of the view that whilst the scale and form of the extension is acceptable, the design of the main elevation is not. This needs to be improved, especially with regards to the brick and flintwork which is overly complex.

I would recommend that they omit the flint and build it all in brick, either in Flemish or English bond – please condition.

The windows and doors should be painted timber – please condition.

Glazing can be a slim double glazed system (10-12mm). Please condition with rooflights.

Kind regards,

Ian

Importance: High

Hi Ian

Sorry to chase up re the application above but we need to make a decision by 28 July 2017, unfortunately there have been a few delays with the site notice which has extended the original period by a month since the original deadline of 29 June so it is difficult to extend the deadline again.

I note that you opposed a previous design at pre app stage but have no information if the current scheme was submitted following discussions and agreements with you.

Are you able to let me know what your views on the current proposal are with regard to the listed building.

Thanks

Mark

Hi Ian

I hope all is well. I wondered whether you have had a chance to look at the above application involving an application to extend a listed building. The application has been submitted some time, I think there were some initial delays but the agent is chasing up for an update. I spoke to Juan who wants me to have your comments before I reply.

Therefore, I would be grateful if you can let me know when you may be able to let me have your thoughts on this one.

Thanks

Kind regards

Mark
