Subject: The Vinery A/97/21/DOC Condition 4

Dear Mr Airey,

The Highways Agency have provided the following consultation response in respect of condition 4 the Construction Traffic Management Plan.

“The contractor should add the following to his plan:

- A local road sweeper will be on standby in the event that detritus/debris from the site is inadvertently dragged out onto the public highway. Any spillages will be cleared within two hours.
- Advise where site operatives will park their private vehicles – we presume this will be in the estate overflow car park? Wherever they are allocated to park sufficient provision should be provided.
- Any abnormal loads expected to be delivered to site (if any) should be timed for periods outside of the AM and PM Peak hour periods.”

Please can you provide an addendum to the submitted Plan or confirm your agreement to the addition of these details by e-mail so that they can be referred to in any decision?

Regards

Anita Gardner
