Thank you for the opportunity to comment on the above numbered planning application. This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. In respect to the above planning application I would provide the following comments.

I confirm that the planned use of a small amount of impermeable tarmac in conjunction with EF Edging, flush with the adjacent PRow surface of Footpath 2151 is acceptable as an access onto the PRow in the two locations shown. Please ensure construction occurs so that there is little scope for pooling of water on either side of these access points.
