Dear Mr. Martin,

I write in respect of the above application before us.

Please note the below contents of the e-mail from the Agent which clarifies that this application considers the removal and reconstruction of the front boundary wall with the omission of the cockerel to an existing height and materials. I trust that any comments made will be appropriate to this amendment and not with the originally advertised description of 'Retention brickwork front boundary wall' (effectively indicating no change).

Any questions, please do not hesitate to ask.

Kind Regards,
Damian Sullivan

Sir,

We have noticed that the description of this planning application has been changed from that which we included on the application form. This application is *not* for the retention of the existing brickwork front boundary wall, but is for the removal and reconstruction of the wall. As detailed on the submitted application form and drawing, the work shall comprise new brickwork in place of the previously constructed brickwork wall (to the same height as the previous wall, but with the omission of the cockerel). This new brickwork shall match the existing adjacent brickwork wall more closely and shall be toothed and bonded into the existing brickwork to the western side. We should be grateful if you could please amend the description accordingly and re-consult with interested parties as appropriate.

Thank you,

Phil Brown.

Martyn

Please note (and CAAC members also) that this application is for the removal and reconstruction of the front boundary wall with the omission of the cockerel. I trust that any comments made will be appropriate to this amendment.

Kind Regards,
Damian

Dear Mr. Brown,

Thank you for your e-mail.

The application will have the amended description of 'Removal and reconstruction of the front boundary wall (resubmission following A/46/14/HH)' with your permission?

The Parish Council and the Conservation Officer will both be made aware of this alteration in description but after liaison with my Team Leader it is not considered necessary to re-advertise the application along these lines as the main parties involved will understand the extent of works.

I trust that this is satisfactory way forward?

Kind Regards,
Damian Sullivan
