Sirs I feel I must very strongly about (objection:A/99/17/out land south of water lane) Water lane is already a rat run and will be at constant standstill. But even more important is the flooding issue they always say they have it under control but is not the case, take the bypass I remember when under construction Mr Somerset telling them they had gone much too close to water table and it would flood and he was told in no uncertain terms to stop picking his nose in, But it floods also the 27 floods under the bridge. I already feel for people living in water lane who have been flooded a number of times over the years so their property's will no doubt go down in value, is this fair I don't think so.

I feel our voices will not be heard yet again but we have to try
