[REDACTED] Planning

Subject: OBJECTION - A/99/17/OUT Land South of Water Lane

Hi

Please accept this email as my strongest possible protest & objection to the above proposed development within the once pretty village of Angmering. I have been a resident here for over 26 years & am appalled by the continued housebuilding attacks on this wonderful location. My objections would be too long to list in details but I have written them down in bullet point format for the sake of brevity;

The proposed site has already been rejected within the Angmering Neighbourhood Plan.

The 8 occurrences of flooding over recent years seem to have been ignored by all & also the sewers & drains problems too.

The appearance & scale of the proposal is completely out of sync with the village.

The South Downs Park area does not need this carbuncle.

There are insufficient doctors, schools & general infrastructure to accept this proposal.

The traffic congestion today is unacceptable & this proposal would only exacerbate this situation.

So please, STOP this proposal from going through.

Many thanks

Mike Mannion
