Subject: Objection to Planning A/99/17/OUT Land South of Water Lane

Would you kindly register our objections to these latest planning applications in respect of the above proposed development, at Water Lane, Angmering Village.

Since moving here seven years ago, we have witnessed the gradual unrelenting building on every free parcel of land, which in turn has over saturated the village we once knew. Local services such as schools, doctors and medical facilities are over stretched, to a point of bursting, not to mention the gradual concreting over and strain on the local infrastructures.

The village has suffered from two serious flooding issues, making properties in Water Lane, mostly uninsurable, Parking and heavy traffic using the village as a shortcut/rat run, to avoid parts of the traffic on the A259, ALREADY OVER STRETCHED, do not bade well even now and any further development will only add to the problems. This application has not been thought through, and I strongly object to this application and the disastrous effect this latest application will have on the quality of life for us all currently living in Angmering Village.

Yours sincerely,

Mr Malcolm Alan Fudge 49, Cumberland Road,

Mr Richard James Angmering Village, Littlehampton,

West Sussex. BN16 4BJ
