Subject: Application number : A/9/19/PL - Pound Place, Roundstone Lane, Angmering

Dear Mrs Gardner

I cannot make the DCC meeting but I wanted to draw your attention to a small area of land by Pound Place that is home to a Hedgehog array.

If you look at the Plan below, in the bottom left corner just above the "A" (in the section highlighted pink) there is a line going from left to right, diminishing, as it appears to form a triangle.

This area is currently separated from Pound Place and the Brougham Grove development by the large Trees on the southern boundary of Pound Place and 2 metre high fencing on the northern boundary of Brougham Grove. It is a 'wild' area and bearing in mind the applicants wish to remove many of the trees, I feel special measures need to be considered when doing so in order to protect the habitat of these endangered creatures.

Accordingly, I would be grateful if you could give some thought as to the protection of this area while the development proceeds.

Kind regards

Tony Cross
