**Town and Country Planning (Development Management Procedure) (England) Order 2015**

Whilst we do not completely oppose this planning application, we have concerns regarding it.

What is the use for the garage if not for a vehicle?

We do not want any disruption caused by the garage being built in front of our property/driveway, we do not expect any building mess or people blocking our drive whilst it is being carried out.

We also have serious concerns regarding the parking in the main car park, people use the bit of land currently to park on and on any given day or night a car is usually parked on it. This will force people to block our drop down further into our private car park.

Emergency Services will not be able to get in to the car park if this is the case, who would then be responsible if the fire service are unable to turn in due to cars blocking the drop down.

We have previously asked for double yellow lines to be put down, went through the council, highways and local councillors however was told none of them dealt with it. If this garage is to go ahead then something would need to be done in regards to the drop down, we as residents should not have to suffer because somebody wants to build on a small bit of land.

As I write this there is currently cars over the drop down and one parked on the bit of land in question, serious consideration needs to be had thinking of the residents and their safety (in case of fire at a property etc) before this is given the go ahead.

Your views as made above will be considered before the application is determined.
