**Subject:** RE: Salt Box - BE/110/19/DOC - Revised Foul and Surface Water Drainage Strategy

Good morning Michael,

Thank for your email.

Our response sent out on the 31.10. 2019 meant to say that we have acknowledged the additional information submitted in regards to Micro Drainage calculations, however, the lack of capacity issue for foul disposal stated in our response date 04.10.2019 remained unchanged and valid.

Therefore, Southern Water cannot recommend of discharge condition 10 regarding foul drainage.

The Council's technical staff and the relevant authority for land drainage consent should comment on the adequacy of the proposals to discharge surface water to the local watercourse.

Kind regards

**Luis Silva**  
Planning Co-ordinator  
For Sussex
